Dear Scientists...

Author(s)

Ioanna Semendeferi

Year

2014

Description

"DEAR SCIENTISTS ..." is a documentary and academic/educational film that draws attention to the seriousness of science ethics and its global implications. With an artistic touch, the film connects past with present, stirring emotions. Building a better future requires historical wisdom and humanistic feelings. Science is beautiful – only if it has a soul.

Body

The film "DEAR SCIENTISTS ..." is based upon work supported by the National Science Foundation (NSF). It is a non-profit film. It was completed in December 2013 and the post-production services finished in February 2014.

Total Running Time: 26 min
