Description

The “Values and Responsibility in Interdisciplinary Environmental Science” curriculum (<http://eese.msu.edu/>) is a modular resource designed to be implemented by environmental science instructors who have no ethics training for the purpose of guiding students through an analytic examination of the values and policy dimensions of their environmental science context.

Body

The [Student Toolkit](#) and [Instructor Toolkit](#) are available at <http://eese.msu.edu/> and in PDF format via the resources below.
