# Best Practices for Publishing Your Research: Data Fabrication and Falsification

## Author(s)

Christina N. Bennett  
Marsha Lakes Matyas

## Year

2017

## Description

An instructor's guide, slide deck, and video looking at the topics of data fabrication and falsification in research publication.

## Body

This module is part of a series of seven teaching modules designed to promote best practices in publication ethics for life scientists and biomedical engineers who publish research papers. This module helps students recognize data fabrication and falsification (DFF), and create a plan for training their future students about data fabrication and falsification.
