FOR ENGINEERING AND SCIENCE

Standards of Ethics for R&D, Infrastructure, and Systems During a Crisis

Author(s)

Jonathan Beever
Angela Bielefeldt
Steven Ceccio
Carolyn Compton

Year

2020

Description

In this webinar series, Dr. Rosalyn Berne, Director of the OEC, hosts a conversation between a panel of expert speakers on COVID-19 and the ethics of research and systems during times of crisis.

In partnership with the Engineering Ethics Division, American Association of Engineering Ethics (ASEE) and the Association for Practical and Professional Ethics (APPE).

Body

The panel includes:

Jonathan Beever, Associate Professor of Philosophy, University of Central Florida

Angela Bielefeldt, Professor and Director of Engineering Plus program, University of Colorado Boulder

Steven Ceccio, Professor of Mechanical Engineering, University of Michigan

Carolyn Compton, Professor, School of Life Sciences, Arizona State University
