FOR ENGINEERING AND SCIENCE

Ethics-Across-the-Curriculum, Ethics-in-the-Disciplines, and Cultivating Ethics Literacy

Author(s)

Jonathan Beever
Alison Kerr

Year

2021

Description

Part of the "Bringing Ethics into the Conversation" series, this webinar featured Dr Jonathan Beever, Assistant Professor of Ethics and Digital Culture and Director of the Center for Ethics at the University of Central Florida. By engaging in this discussion on ethics literacy, OEC community members refined their understanding of approaches to ethics education, reflected on implications for these approaches at their own institution, and reimagined roles of inter- and trans-disciplinary expertise in cultivating ethics literacy.
